

System Solutions

HEBSS. BOGIE Suspension Systems

As a leading system supplier, our focus is on producing weight-optimized components that combine maximum reliability throughout their lifetime. Our product portfolio includes anti-roll bars, traction rods, suspensions, and linkages that are designed, calculated, developed, and produced entirely in-house, resulting in a plug-and-play product that is easy to install and use. In addition, we offer innovative active auto-leveling and spring-damper systems for a wide range of applications. At every step of the way, we work closely with our customers to develop tailor-made solutions that integrate seamlessly into their vehicle systems. Our goal is to provide our customers with the best possible product and service, ensuring that they receive a product that meets their exact requirements and exceeds their expectations. Trust us to deliver the high-quality and innovative products you need for your vehicle system.

HEARB. Anti-roll bar systems

HETR. Rods

HEMSCHIEDT offers unique bogie suspension systems, such as:

- Anti-roll bars or stabilizers
